Executive Summary

This month report depicts the monthly progress of PPRP Districts project activities carried out with fundamental ingredient of social mobilization: CO/VO/LSO formation, their routine and follow up meetings with the practice of saving, community initiative through community institution platform with further Programme interventions to targeted households'. PPRP is the only Community-driven Women development Project seek to empower communities, reduce poverty, and improve economic and social conditions of the poor, typically in rural and remote areas.

Community Driven Development addresses two persistent gender gaps: (1) women's lack of voice in public and home decision making, and (2) their poor access to basic living facilities' and income generation sources' and developing their capacity to survive in the fittest ambiance.

PPRP implemented on "the principles of local women empowerment, participatory governance in community institutions', demand responsiveness, administrative autonomy, and enhanced local capacity."

There were also community institutions leaders' conference for interacting and brining three pillars: political, administrative and social pillars collaboratively at one platform of MAC managerial activist conference that community institution leaders can share their progress, learning experiences and issue to be resolved at this platform. The targeted community is also getting many benefits through intervention of CIF Community investment Fund, IGG and LCHS.

Social Mobilization:

The basic pillar of development and foundation of eradication rural poverty among marginalized rural women to fold themselves into community institutions at the community level on Parra, village and union council. In order to accomplish this, SRSO conducted "Poverty Score Card" exercise in projected union councils in six districts to help identify the poor and the poorest.

Under the social mobilization, the women fostered into CO/VO and LSO has been at peak in the six districts areas. Rural women of these areas have shown their keen interest to uplift their living standard by formation of community/Village organization. Indeed, the next phase is of selection of honest and dedicated community institution leaders, conducting monthly meeting, doing exercise of saving and operate their organization for development of human and society to alienate the poverty at household level by generating new sources of income at HHs level.

Therefore, all women are familiar with the objectives behind the formation of VOs and COs, and therefore participate actively in every exercise carried on through PPRP Programme. In the entire Cos and VOs officeholders were selected in consultation with the community members in a democratic way. Which is also a sign of self-governing learning and ownership of PPRP, by the community. Another encouraging sign of the democratic process is the Participation of the members in PPRP activities in the identification of the Programme activities for their VOs and COs.

During this Month, the Social Mobilization progress from inception until 30 July 2019, households organized and fostered into Community organization with a cumulative from the inception of Programme.

Meanwhile, after the maturity of Community organizations (COs') these were further federated into village organizations' (VO), VOS formed in month.Furthermore, the managerial skills, capacity developing and getting other soft and sensitization skills through many-boosted training of these community women they further federated into last tiers of Social Mobilization that is Local Support Organization.

The Progress of LSO is very dedicated and enthusiastic to work with PPRP for development of community. After maturity of the Community/Village Organizations, that have developed their managerial and governance systems as they undertake more and more development activities. Their institutional maturity and their ability to influence government and other stakeholders have built over time. The clustering of Village Organizations (VOs) leads to the formation of Local Support Organizations (LSOs) which represent the second generation social mobilization".

Community leaders Capacity Building Trainings

Aligned with the social mobilization, the community institutions leaders are also keen to develop their capacity for running their community institutions with new energy and skills that have been required for linkages' of community driven development.

SRSO under the PPRP, for managerial skills trainings of community leaders of community institutions, there are many trainings have scheduled at community level. There are scheduled different type of trainings for three VO leaders initially because the CIF, IGG, VTP, LCH and ED interventions starts at VO level. Therefore, the skills training starts from Community organizations (Cos) office bearers which is, CMST (Community Management Skills Training), in which three days managerial

training for CO leaders at village level. In addition, they trained on necessity of VO management and Planning Training, CIF Appraisals', monitoring training, and many other managerial pieces of training for community organizations' (CO/VO/LSO) office bearers held to train and uplift these Cis.

Furthermore, they further trained about the community driven developments that are mandatory for upbringing the life of household because through community living standard can upgraded.

Moreover, in pursuance of CO, there are three more trainings for managerial skills for VO leaders. Every training consist of three days: VO Management and Planning training, CIF appraisal and monitoring training and least but not last, CIF Book Keeping and CO accounts audits training for VO leaders. In which they are trained for activity which will be undertaken their community institution. In pertinent to this, Community institutions leaders also arranged the Managerial Activist Conference (MAC) of community leaders and activists that are willing to uplift the community from poverty and have a spirit to work under the community institution platform (CO/VO/LSO) with the technical assistance of SRSO. In a month, the VO leaders Training Vo management and planning training (VMST) arranged at District Offices along with three days training on CIF appraisals and monitoring training. In Khairpur CRPs were identified, interviewed and their three days CRP Capacity building training was also conducted with the assistance of IMSD.

Vocational Training Programme

Under PPRP, the vocational life skills training Programme is a vital Programme for empowerment of women through life skills trainings towards economic support and self-reliance.

Vocational education is a source of training that not related with education mainly it depends upon the intelligence and wisdom for getting technical skills education. So under Peoples' Poverty Reduction Programme, Vocational Training Programme which is job oriented started in all districts: Khairpur, Sanghar, Badin, Umer Kot, Mirpurkhas and Thatta. This training is mainly for the youth of the rural community to empower the society with their skills that they possess just need to polish their skills and have a systematic training process by trained trainers' with their profession which can be a source of income generation at household level.

A large cadre of rural men and women will trained through a wide array of vocational trades and skills: a total of rural women have been

certified and trained in different trades at Khairpur, Sanghar, Badin, Umer kot, Mirpur Khas, and Thatta.

Currently, many candidates have enrolled in different trades in District by establishing Vocational Training Centers at community level through IMSD (Institute of Management and Skills Development.

PPRP vocational training Programme is for improving the skills of community members, especially the poor, through vocational training skills will help contribute towards labor force participation, but the most important factor is connecting the training skills with the needs of the market.

Community

Record Keeping

Community Institution's record keeping is the first and basic need; therefore, the literate female is the main assets of these community organizations. therefore the Fostered Community has also maintained the updated record and doing the practice of saving which is a positive sign of project during their initial phase because the organized community is self-aware regarding recording the documentation and Record keeping has significantly a good sign followed by the community in PPRP Programme in last two months. All fostered COs and VOs had their required registers and books available at the time of the formation, and all CO and VO records fully maintained updated until the end of the month. This exercise of record keeping by the community and Social Mobilization teams attributed to the continued process of follow-up and guidance with dedication and commitment by projected teams of SRSO. This shows continuity in SRSO's efforts to inculcate transparency and accountability within the COs.

Low Cost Housing Scheme

Under the Peoples' Poverty Reduction Programme funded by Government of Sindh, there is an activity undertaken for only extremely poor people who have not their roof to cover their family and undertaking this, PPRP is providing them low cost houses shelter to those people. In pertinent to this, SRSO is targeting only 0-11 PSC score beneficiaries who have their own land and having own responsibility to build the architecture same for the proposed budget approved for per house.

Meanwhile, SRSO has started the construction of houses with the consensus of CO/VO/LSO for the extremely poor people as a responsibility to build houses with the technical and financial assistance of SRSO engineers under this Programme. Engineers first prepare the feasibility report for the houses and then pass a resolution through CO/VO for beneficiary. Later, A MoU signed between beneficiary and SRSO about land and construction of Houses along with desired allied facilities' for house. Later, SRSO Engineering department start their technical guidance and monitoring the construction phase by frequent visit and as per ToRs giving them the financial cheques into installments basis to beneficiary only as per physical status of house.

In all districts, the low cost housing scheme has started and engineers are busy in construction of houses. The Cheques to beneficiaries given into installment after technical assessment and viewing their willingness to construct house at concern place/plot where they are ready to construct the house.

Monthly Progress Review Planning Meeting

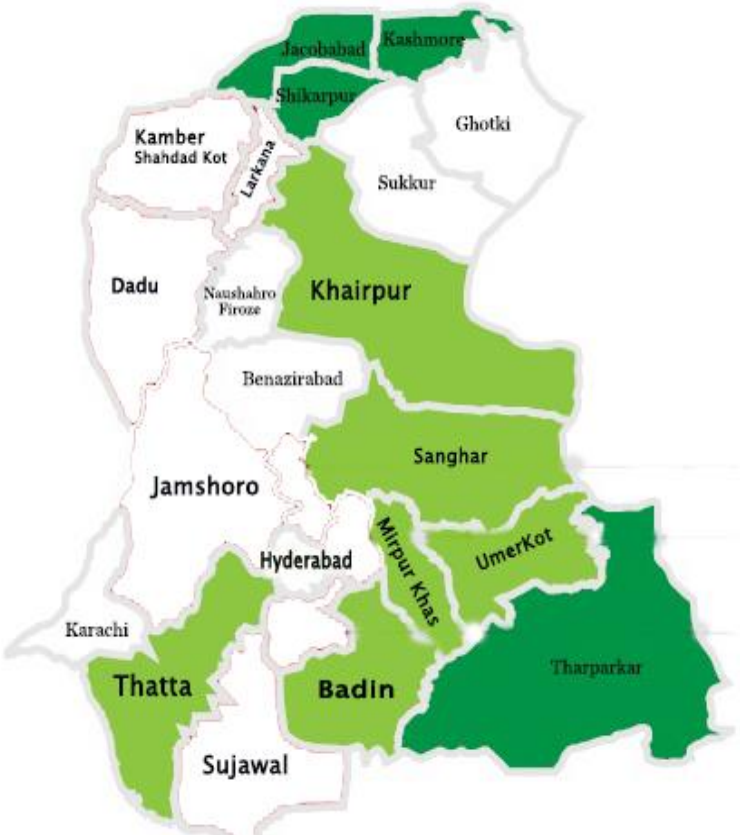
As SRSO is always arranging a monthly progress review and next month planning meeting of all districts chaired by Senior Management. In Pertinent to this, during the first week of July month, the six Districts consolidated Planning & Progress Review meeting held at District Office Badin. This meeting chaired by CEO SRSO & TL-PPRP. In which, all District Managers, M&E Professional and Assistant Finance Manager participated. The chief guest of this Programme was DC-Badin Mr. Siyal and appreciated the Programme intervention, community participation is applaud at household level, and they are working with you for community driven development for poverty reduction.

Peoples' Poverty Reduction Programme

Peoples' Poverty reduction program is one of the main Programme of Government of Sindh for alleviation of Poverty and for the community driven development from their need analysis and women empowerment. Which is only possible with household approach by strengthening the community and households at initial unit of administration which is Union council level, so Government of Sindh has further extended the Peoples Poverty Reduction Programme (PPRP) which is a 1st Union Council (UC) based Poverty Reduction model of Pakistan.

Union Council Based Poverty reduction model was a big community development initiative to poverty reduction at the rural and unprivileged community of rural Sindh by Government of Sindh.

This was an initiative of Sindh Rural Support Organization (SRSO) and the Government of Sindh for the alleviation of poverty through participatory approach at the household level. The Programme has successfully completed the 1st phase with golden words of success stories and poverty graduation among the rural community in projected areas that are a real witness to the success of the programme. Later the European Union also replicated the same



Legends: Dark Green Shows the Districts' Covered under UCBPRP and Light Green Shows' the districts covered under PPRP (Both Funded by GoS)

model and extended this Programme into 8 districts of Sindh with a Programme titled as SUCCESS. This Programme has designed to alleviate the poverty of targeted communities of the poorest in rural Sindh. In the year 2016-17 GoS has included the PPRP for further **six** districts in Annual Development plan, which started in July-2017 in districts': Khairpur, Sanghar, Umer Kot, Mirpurkhas, Badin and Thatta with a financial assistance of 6.3 Billion by Government of Sindh.

The primary objective of PPRP is improving the quality of life of the rural communities, especially

the poorest of the poor by an identification tool of Poverty Scorecard (PSC) Survey.

It is an android-based CAPI survey for collecting the data and GPS coordinates for tracking purposes by writing all the details in the survey to provide technical assistance through this Programme to alleviate the poverty. Later, th heart of all activities through the main conceptual package of Social Mobilization starts in the communities that have identified for future Programme interventions.

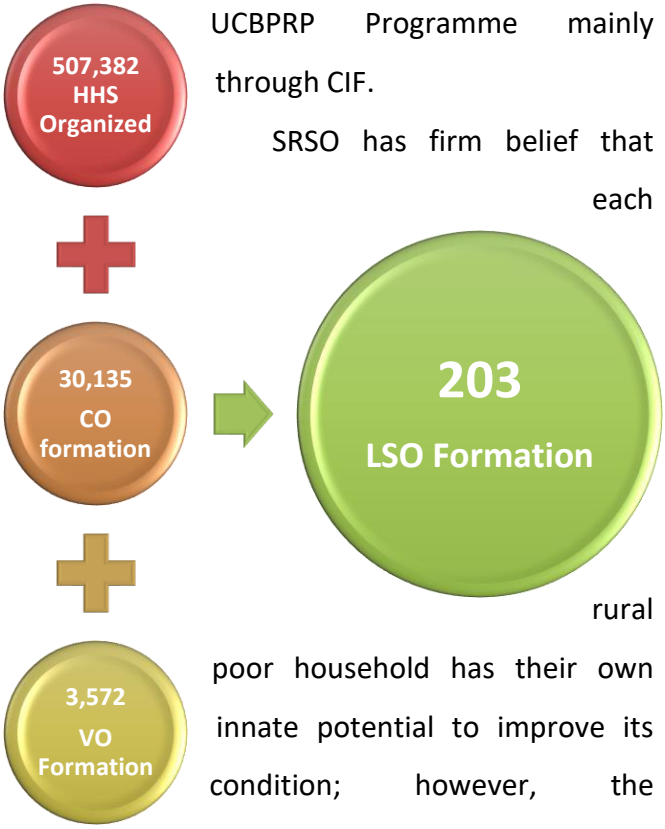
The process of Social Mobilization this involves organizing rural communities into "organizations' of the poor" at the community, village and union council level. This structured approach entails organizing rural communities into 'organizations' of the people' at the Mohallah (neighborhood) level into Community Organizations' (Cos) and then into a federation of these COs to Village Organizations' (VOs) at the village level. These VOs are federate at the union council level into Local Support organizations' (LSOs).

These organizations are formed and owned by local communities, and undertake a wide array of development activities such as village-level community Investment Fund (CIF), income-generating Grant (IGG) initiatives, VTPs and social sector Programmes, with the technical support of the GoS. PPRP in Sindh has some unique features.

First, the Programme is focusing on women and the poor and poorest households, identified through a Poverty Score Card (PSC) survey. Third, the Programme is highly intensive in its development packages and coverage and is concentrated at the union council level. Finally yet importantly, the Programme very quickly covered the Programme union councils by organizing communities: most of its targeted activities have implemented within only 6 months i.e. PSC survey has completed successfully which was a huge task. PPRP aimed to remove common hurdles faced by the poor that weaken their social capital: it seeks to create economic/productive assets through a self-help methodology by providing access to community managed microloans, income-generating grants, and creating employment opportunities by training youth in technical skills and engaging the trained Pax into different industries for jobs perspective.

The Peoples' Poverty Reduction Programme (PPRP) is based on the three tiers social mobilization approach to alleviate the poverty through uplifting their living standard by realizing and unleashing the real potential of the rural community by empowering the women who are the real driving force of generating new

economic resources for the household. SRSO is implementing this Programme from the starting of the UCBPRP from 2009, which has driven their real hallmark and depicts the real success of Programme by **50%** graduation of intervened community through different interventions of UCBPRP Programme mainly through CIF.



SRSO has firm belief that each rural poor household has their own innate potential to improve its condition; however, the household faces constraints that do not allow it to realize the potential. If these rural people especially rural women organized in order to enable them to have a collective thinking and actions for the development of society and act upon their consensus decision to alleviate the poverty that is existing among their households' collectively think and act upon their development. Therefore, PPRP is based on Social Mobilization approach, which is, consists of the organizing of communities in rural into three tiers community institutions'. At the first tier, these communities are organize into Community Organizations (COs) which are organizations' at the neighborhood or Mohallah level.

These COs consist of membership from **15 to 25** households on average. COs ordinarily carry out activities such as household level development planning, training, savings, and credit. At the second tier, the COs federate at the village level into a Village Organization (VO). Membership of the VO normally consists of two nominated members from each CO in the village he activities of the VO are to work on development activities which run across the village such as community infrastructure, partnerships with local government and other agencies, and on issues which affect the entire village. At the third tier, VOs federate at the Union Council level to form a Local Support Organization (LSO).

PPRP designed especially for those new Households to the poorest community for their development as other districts women have changed themselves. The Project serves as a step to change their lives by uplifting their living standard through small initiatives and resource.

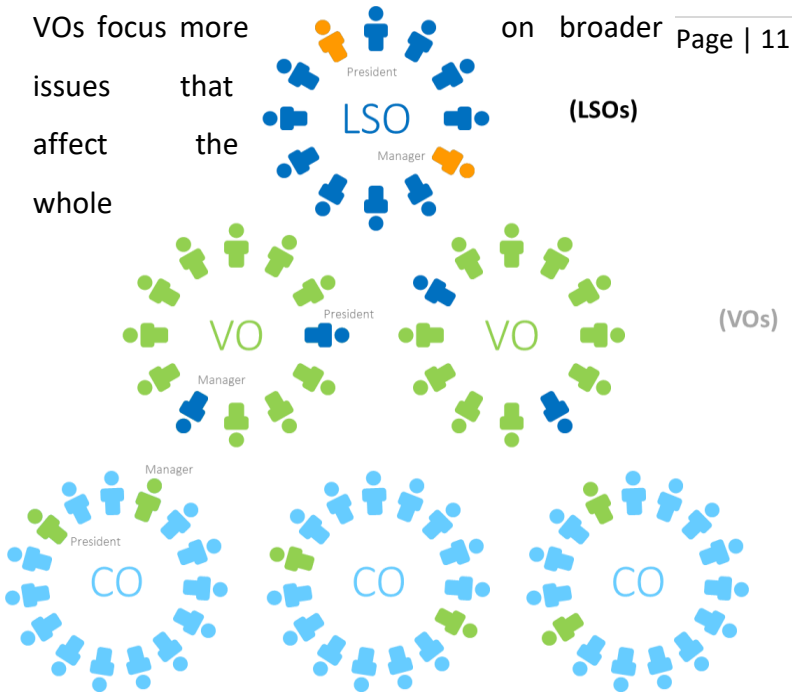
This is for those who do not engage in their rural women for as a financing source for their household regularly or those who would like to consider new source for income generation or

new tools for overcoming upcoming inflation waves for survival. GoS and SRSO hope that community value this material and can apply its content to community development work so you, too, can come up with the money for your next initiative.

This apex organization consists of membership from the VOs in the entire union council and is responsible for coordinating with its membership base to construct a development agenda for its members. It is also responsible for networking and developing linkages with external organizations' such as local government, donors, NGOs and the private sector for achieving its development agenda.

The potential can be harnessed if the poor households are mobilized to foster their own network of organizations' at Mohallah (Community Organizations – COs), village (Village Organizations – VOs) and union council levels (Local Support Organizations – LSOs).

Once the women from poor households are organized, they prepare Micro Investment Plans (MIPs) wherein they highlight the potential income generating activities that they can undertake on their own, the constraints they face and how these constraints can removed. SRSO provide Community Investment Fund (CIF) to these organizations' so that they can provide small loans to CO members for the implementation of MIPs for income generation. While COs focus on income generating activities, VOs focus more on broader issues that affect the whole village, e.g. education, health, infrastructure, etc.



Social Mobilization:

Programme Introduction

The Social Mobilization first step starts from initial contact at the village after the PSC survey results, later the SMT went there and collect all households in a gathering, they conduct a Program Introduction session about the program in every projected settlement to tell them about the program in detail. The Programme Introduction sessions conducted by field teams, they initiate the session by doing brain storming of rural women with participation approach that

PEOPLES' POVERTY REDUCTION PROGRAMME FUNDED BY GOVERNMENT OF SINDH

what is poverty and where it lying and what are the main causes of poverty and how it alleviated from rural areas can.

Everything vividly defined that what Government of Sindh under the Peoples' Poverty Reduction Programme has brought for you.

SRSO has brought a Programme with the financial assistance of Government of Sindh, so we will not do any work that is government or government institutions' and departments' are doing we are only here for you just a bridge for GoS intervention to household level because Government could not reach out at every household level.

They added, Pakistan is also suffering from high poverty rate but poverty is existing worldwide, we cannot say that any province of Country has no poverty but in Pakistan Actual poverty is existing at Rural areas and especially at the household level; only a mother knows when her children are hungry, out of school, ill, and without shoes.

Hence, if poverty is at the household level then actions have to take at the household level. However, despite doing a great deal of work, all these hundreds of government departments do not, and cannot, reach out to the household level where actual poverty exists and is being experienced 24 hours a day.

Consequently, Government of Sindh has brought a revolutionary Programme for you people but there are three conditions compulsory to alleviate the poverty because it is the real witness of your success.

Indeed, which are 1: foster into three tiers social mobilization, 2nd choose honest and dedicated community institutions leaders that can give you time and run the institute with willingness and commitment.

Third is the exercise of saving at household and CO level because these things have set a remarkable milestone in alleviation of poverty in northern areas of Pakistan and In Sindh also. Furthermore, after the success of the first PPRP in two districts namely Shikarpur & Kashmore@Kandhkot, where thousands of the people were mobilized and graduated at poverty level with it this Programme.

Later, the rural women show their willingness that there are ready to do for their future generation and for their families and they have skills to do more to alleviate the poverty but need your guidance and assistance.

Whereas asking examples that what they possess that can alleviate the poverty, they said that they have minimal resources at the household level: small ruminants or a share in cattle/buffalos, knitting/stitching skills, etc.

These can be a small piece of land, some livestock, some skills, family members, or some small savings.

Women showing their keen interest that they have many skills, which underutilized due to not having resources and potential to do but slightly need to polish and improve.

These rural women and their management of the resources of the poor households through which their source of income generation can increase because the money is the main source of alleviation of poverty and if money came into house then it automatically turns the living standard of poor.

They quoted several potentials i.e. Vocational Trainings for their daughters and sons, vocational training for themselves i.e. Tailoring, Stitching, hand embroidery, applique, and beautician.

The gathered community women and men agreed upon a single point of having some resources, and that their management can improved. At last, all community women speaks about their poverty and shown keen interest to work with SRSO and foster themselves into CO/VO/LSO.

Community Organization

CO/VO/LSO Formation

Social Mobilization is mainly to mobilize the community about a big idea that is going to hearten them for their development and uplift their living standard through a successful experience of organizing themselves into community-level institutions: CO/VO/LSO. SRSO in last PPRP Phase has proven to experience that when community-owned organizations' are financially and socially viable initiatives that can play a pivotal role in the process of social transformation.

Because this will create, a social awareness and thinking pattern change through which a cumulative thinking and realizing their potential will ignited and work automatically being a self-reliant and own initiative for the development of society. As part of the PPRP Programme, Community Organizations' (COs), Village Organizations' (VOs) and Local Support Organizations' (LSOs) will be formed to create local level domination organizations owned and operated by the community, especially rural women.

Now, the SMTs are going into village and conducting the Programme introduction briefly by telling them about the importance of CO/VO/LSO.

Whereas, the community has also told that how these organizations will help you in future that these organizations' are expected to play an important role in identifying problems and offering solutions, with the help of the

government and other development stakeholders at community level through this platform for community-driven development.

As SRSO is playing a vital role between GoS and Community so the Core activity of all interventions is the Social mobilization approach in PPRP to identify the poor in order to enable them to participate directly in decisions that affect their lives and prospects. The concept is to build capacities of people to organize, manage their own organizations'. In this Programme of PPRP SRSO, social Mobilization teams provide technical and social guidance and financial assistance to the rural poor based on a standard three-tiered social mobilization approach for the alleviation of poverty, which is the basic mandate of this Programme. The social mobilization approach, it mainly depend

on trust of poor women that this will be a social change agent by they possess the skills that can be utilized very well just need to polish their skills and have an innate potential to help themselves, that they can better manage their limited resources if they organize themselves into their own institutions (CO/VO/LSO). Once people organized into properly functioning institutions of their own, they find the platform to harness their potentials, address their problems and fulfill their needs. When such institutions of the people fostered at the neighborhood, village and union council levels, they become a vehicle through which all kinds of community development initiatives can effectively implemented.

These institutions serve as the primary partners in fulfilling the nation's development agenda by extending outreach to the household level across

where the Cos managers and President join the VO at the village level. Furthermore, as Community Organizations' (COs) are the foundation of the three-tiered institutional network. The CO is a neighborhood level institution comprising of 10-25 member households. COs are federated into Village Organizations' (VOs) for planning and coordination at the village level.

Capacity Developing Training

CO/VO Office Bearers

Under the Peoples' Poverty Reduction Programme, the developing capacity of community institutions office bearers and their representatives' is the main priority while implementing it. PPRP the VMST/CMST designed for presidents and managers of Community Organizations for the purpose of mobilizing and strengthening their capacities to identify their problems and decide priorities on their own. The event organized when COS, VOs formally started conducting meetings monthly, and at least two months they have conducted meetings and practiced saving exercise at the household level. This training aims to enhance the knowledge, skill, and capabilities of the participants in planning and managing their developmental activities and to utilize the available local resources as well.

It provides the participants an opportunity to build their capacities to break the vicious cycle of poverty by undertaking the poverty reduction and income generating activities on their own according to the community needs.

Vocational Training

(Employable Skills Training)

Sindh is contributing a lot in youth employable skills and providing training cum job skillful trainings because youth population in Sindh estimated at 55.7 and out of this youth population, 1.7 million are unemployed as per secondary survey (GiZ survey).

A large group of youth is unemployed, as they do not have skills to compete in the job market due to different circumstances i.e. quality of education, low literacy rate, having not good school infrastructure for formal education. Therefore, Skills development is an important step to promote employment generation through employable skills training; as it will increase in number of skillful youth would increase per capita income, thus give boost to economy of province.

During this project, SRSO has groomed youth in many employment trades priority given to women and females for empowering their role in contribution for poverty alleviation through social mobilization community institutions (CO/VO/LSO) and shaped the youth as an economic asset for their households.

During monthly trainings at different districts, names for ensuring implementation of quality vocational standardized skill development training so that each man and woman would get equal opportunity to get benefit from this intervention at community level.

This successful ending of trainings has brought lucrative results in human resource development at community level in wisdom and knowledge development for way forward career. For This Component we financially supported by Donor GoS-EPPRP, the detailed achievements' of six districts mentioned.

Job Placement of Certified Vocational Training Pax

SRSO believes in providing a path that leads a career of prosperity through vocational life skills training for male and female through linkages and job placement.

Job Placement in PPRP is the basic step by supporting graduates with career related challenges through their expertise as per labor market, so they can put a person's qualifications, experience, strengths and weakness in a broad perspective while also considering their salary, location job market possibilities. IMSD-SRSO are often capable of supporting VPT graduates finding suitable placement / jobs in working out conflict with their employers or finding the support of other helpful services.

In pertinent to Job placement, SRSO District Managers along with vocational training profile,

has conducted different meeting with industries at local level and small workshops for placement of graduates'. Indeed, many graduates are now working at different industries and workshops or have opened their own business as an entrepreneur.

DISTRIBUTION OF COMMUNITY INVESTMENT FUND (CIF) & IGG

Under the PPRP Programme Funded by GoS, the first round of Community Investment Fund (CIF) cheques distributed in the fostered Village Organizations' (VOs) to the poorest households. These VO Office bearers have participated the managerial skills development trainings for managing the CIF and IGG and more interventions. They attended VO management and Planning training, CIF appraisal and Monitoring, Book keeping and CO accounts auditing training.

The community office bearers are also maintaining the community record of community institution of registers for a proper record in all districts of project including Sanghar, Mirpurkhas, Khairpur, Badin, Umer kot and Thatta.

The community on basis of their available resources, they develop their own Micro investment plan **(MIP)** for investment purposes' to generate income, CIF is interest free loan, and it is a seed money.

Therefore, CIF is one of the main components of the Government of Sindh Funded Union Council Based Poverty Reduction Programme and targeted at the women from poor and poorest households. A capital grant provided by the SRSO VOs or Local Support organizations' (LSOs), and used by those community institutions (CIs) as a revolving fund.

The poverty score of the household, obtained through the Poverty Score Card (PSC) survey, is used to identify the eligible households to ensure that only the poor and poorest households (with Poverty Score 0-18) access CIF capital and start income generating activities. During the visits, subjected officials also met with the leaders of CIs who gave a brief overview of the progress made by their respective CIs for local development.

Community leaders said that the women feel empowered and important after forming their own organizations'. Talking about the priorities of the CO/VOs, they said, "Capacity building of women and making them more aware of various social and health issues are the CIs priority area". While discussing the challenges at Sanghar, community leaders said, "the locals were not ready to mobilize initially, but persistent persuasion helped the communities realize the importance of coming together and saving money." Many women also shared their stories

about the ways savings have helped them in their times of need. While talking to the organized women community members CEO SRSO said, "I am very happy to hear your stories and you have proved that you can solve your local development issues and help reduce poverty at a household level once you are organized."

Managerial Activist Conference (MAC)

SRSO district Offices organized MAC (Managerial Activist Conferences') for the organized Households, Community Institutions office bearers and Community resource Persons, Volunteer, activist to highlight the village level issues and collectively find out the solution with the assistance of three pillars officials: Political, Administrative and social officials'. The conference will be a bridge to have a result-oriented interaction within political, government, & social pillars to create the platform for these organized rural women and their community institutions (CO/VO/LSO), the conference will be a social change agent for social pillar to be aware all government and non-government stakeholders that will assist the community.

Whereas, this type of conference provides the basic opportunity to collectively identify the social and administrative issues that creating hurdles to alleviate the poverty on the village level. Furthermore, this conference is a way to try to get attention and closer coordination with all stakeholders for community-driven development with the technical assistance of SRSO.

The workshops attended by community members, District Government officials, Women Development, Assistant Deputy Commissioners', Social Welfare departments, Local Government members, and Different stakeholders' officials. The day dedicated to highlight the importance of women mainstreaming in development and presenting first women empowering Programme.

PPRP, as role model for active and equitable rural development to alleviate the poverty at household level with self-assistance and belief with new sources and ideas.

IT is a willingness to work through the community institutions' platform with a cumulative development also.

Furthermore, they also appreciated the women's keen interest in improving education and health. District and Local Government officials added that their administration would provide full support to the rural women for their development. Meanwhile, through the CO/VO/LSO social mechanism, the government line departments have an opportunity to extend

their outreach and that he will encourage the departments to work closely with SRSO and the women's of COs/VOs/LSOs.

Green and Clean Sindh

1258 trees planted during CIF disbursement

The organized community under PPRP sensitized about the importance of tree to keep balance the eco system. It was unanimously decide with consensus of organized community that all beneficiaries who avail the provision of Community Investment fund (CIF) will plant one tree AT household level and look after it as well. In

perspective of improving the environment, 1258 trees successfully planted at district Badin in month of July 2019.

Enterprise Development
Mehran Nursery initiated at Village & UC Khairpur Ghambo Tehsil Tando Bago District Badin

Under the provision of community investment Fund loan for Enterprise CIF loan, two beneficiaries jointly initiated nursery at village and UC Khairpur Ghambo tehsil Tando Bago district Badin. Both beneficiaries have intension to do small business that could also contribute to improve the environment. There was no any nursery at mentioned places so community two beneficiaries with provision of CIF; initiated Mehran nursery.

The Different Business Groups at community level have executed following business.

Trades	Trades	Trades

GOS SOCIAL PROTECTION STRATEGY UNIT (SPSU)

VISIT AT DISTRICT BADIN and Thatta

27-28 JULY 2019

Government officials from Social Protection Strategy Unit (SPSU) GoS & SRSO PPRP Badin team Collective proceeded field at District Badin with collaboration of Sindh Rural Support Organization (SRSO). On following parameters as described under.

Focal group discussion on following Parameters with community

1. Social protection unit (Food security)
2. Health rehabilitation of pregnant and lactating women for 1000 days
3. Appropriate and deserving labor payment under head of Agriculture work
4. Women community center

Participants

1. Ms.Saba Aslam (Social Protection strategy unit)
2. Mr.Hussain (Social Protection strategy unit)
3. Mr.Azmat Durani (Social Protection strategy unit
4. Mr.Rashid (Social Protection strategy unit)
5. Dr.Ghulam Rasool Samejo (Team Leader PPRP)
6. Mr.Abdul Latif Soomro District Manager Badin (SRSO)
7. Mr.Iftikhar Ahmed Abbasi (District MER Badin (SRSO)
8. Ms.Ambreen Soomro (District CIF Professional (SRSO)
9. Social organization Team SRSO

Meeting proceeded at following locations with community

1. Village Saleem Mallah with Local Support Organization (LSO) at union council Pir Fateh Shah, Tehsil and District Badin.
2. Village Haroon Rajo with village organization (VO) at union council Pir Fateh Shah, Tehsil and District Badin.
3. Village Varjang Kolhi at union council Kadi Kazia,Tehsil and District Badin.

Proceedings at community Level

GoS officials form Social Protection Strategy unit individually introduced themselves and Dr. Ghulam Rasool Samejo Team Leader Peoples' Poverty Reduction Program (PPRP) shared the agenda of focal group discussion (FGD) with the group that consisted members of Community organizations (COs), village organizations (VOs) and local support Organizations (LSOs). He added that Government of Sindh has intention to launch other programs for betterment of rural community.

Government officials proceeded queries and community responded as under

Community responded that in rural areas community mostly depended on agriculture and rearing of livestock. Nevertheless, recent scenario deviated towards labor

work and the payment varies. There is no any specific mechanism by Government of Sindh to ensure labor work payment so most of payment did not bear the requirement of home expenses that invites many issues specially women for deficiency of malnutrition. Moreover, some people in every village are completely depending on mercy of others to receive some money for survival.

It's really hard for rural women to approach at city hospital that consume more cost which is out of their rang. In rural areas, most of women suffers from many diseases and some of them knee down in front of life to accept the death.

There is dire need of sensitization along addressing women problems, which mostly ignored, or else they could not approach at hospital because of insufficient money. Even

though, women give birth more children that almost destroy her health, but she does not have money to take precaution to stop kids for further birthing. Pregnant women never get any carry neither required nutrition provided.

Government officials inquired that what would be preferred the card for month food items or some specified amount of money? Community center could be establish in rural areas.

Some members favored to Card for monthly food, some preferred to money, and other supported both provision. Community stated that Card will only address the issue of required food material, but money could address both requirement i.e. food, health and basic requirement for completion.

Community shared that it is dire need to initiate a center at rural areas in each union council as centralize to address the issues. It will address many things either it belongs to health issues or right of labor work or support of good security including people of dependable (disable or vulnerable)

Community shared that it is effort of Sindh Rural Support Organization (SRSO) who are implementing Government funded program with their dedication and devotion. Their efforts and sensitization brought us under one umbrella and made us able to do advocacy for rural community.

Thatta Visit by SPSU GoS P&DD

Government officials from Protection Strategy Unit (SPSU) GoS & Collective proceeded field at District Thatta with collaboration of Sindh Rural Support Organization (SRSO). On following parameters as described under.

- Tarique Ahmed Korai
- District Staff team Members

Meeting proceeded at District Office Thatta & following Main points discussed Meeting started with the recitation of the holy Quran and later introduction done proceeding done as per agenda.

Intention for the Launching of new project on the health & Nutrition from (SPSU) Unit & integration with the Community institutes like CO,VO' and LSO impacts and feedback from

SRSO working experience was briefly discussed with the team member's , individually every members have incorporated their experiences in details , after lunch the all team members left for

Badin field plan .

On dated 28-07-2019 Field visit at Field Unit

Mirpur Sakro –SRSO Thatta

After completing badin trip again the same above officials have visited the FU-Mirpur sakro at village Ali Muhamamd sheikh UC Ghaghi where they have a detailed meeting with LSO Roshni in which 22 Community females have participated including the General Secretary of LSO Ms. Habiba below are details …

Introduction at community.

GoS officials form Social Protection Strategy unit individually introduced themselves and Dr.Ghulam Rasool Samejo Team Leader Peoples' Poverty Reduction Program (PPRP) shared the agenda of focal group discussion (FGD) with the group that consisted members of Community organizations (COs), village organizations (VOs) and local support Organizations (LSOs). He added that Government of Sindh has intention to launch other programs for betterment of rural community.

Government officials proceeded queries and community responded as under

Community have informed about the working of the PINS Project supported by NRSP where they are providing the goats to the pregnant women's and providing assistance to develop and enhance the kitchen gardening approach in the community level and help in the strengthening of their livelihoods .

Community have appreciated the efforts of SRSO & NRSP for making their life easier

Community responded that in rural areas community mostly depended on agriculture and rearing of livestock, but recent scenario deviated towards labor work and the payment varies. There is no any specific mechanism by Government of Sindh to ensure labor work payment so most of payment did not bear the requirement of home expenses that invites many issues specially women for deficiency of malnutrition. Moreover, some people in every village are completely depending on mercy of others to receive some money for survival.

It is hard for rural women to approach at city hospital that consume more cost, which is out of their range. In rural areas, most of women suffers from many diseases and some of them knee down in front of life to accept the death. There is dire need of sensitization along address women problems, which mostly ignored, or else they could not approach at hospital because of insufficient money. Even though, women give birth more children that almost destroy her health, but she does not have money to take precaution to stop kids for further birthing. Pregnant women never get any carry neither required nutrition provided.

Government officials inquired that what would be preferred the card for month food items or some specified amount of money? Community center could be establish in rural areas.

Some members favored to Card for monthly food, some preferred to money, and other supported both provision. Community stated that Card will only address the issue of required food material, but money could address both requirement i.e. food, health and basic requirement for completion.

Community shared that it is dire need to initiate a center at rural areas in each union council as centralize to address the issues. It will address many things either it belongs to health issues or right of labor work or support of good security including people of dependable (disable alternatively, vulnerable)

Community shared that it is effort of Sindh Rural Support Organization (SRSO) who are implementing Government funded program with their dedication and devotion. Their efforts and sensitization brought us under one umbrella and made us able to do advocacy for rural community.

Meeting at DC office with Provincial Disaster Management Authority (PDMA)

Participants:

Date 09-July-2019

1. Mr.Imran Ayub Program Officer (PDM)
2. Mr.Abdul Ghafar Khoso
   Deputy Director Social Welfare Department
3. Mr. Din Muhammad
   Assistant Deputy Director- SWD Badin
4. Mr.Fida Hussain Soomro
   Program Manager (LHDP)
5. Mr.Abdul Latif Soomro
   District Manager (SRSO)
6. Mr.Iftikhar Ahmed Abbasi
   District MER (SRSO)

PEOPLES' POVERTY REDUCTION PROGRAMME FUNDED BY GOVERNMENT OF SINDH

Debriefing

Government of Sindh is proceeding study at Disaster effected areas with coordination of Provincial Disaster Management (PDM). Mr.Imran Ayub representative of PDM briefed the purpose of meeting to identify the disaster-affected areas along with focal person who could be able to sensitize community awareness sessions. In this perspective, Sindh Rural Support Organization (SRSO) and LHDP shared the identified areas.

Meeting with Community

All meeting participants proceeded meeting with community at identified village of Misri Mallah union council Dodo Soomro Tehsil and District Badin. Community organization shared records (Registers) of sub-village and village level which provided by Sindh Rural Support Organization.

Mr. Imran Ayub proceeded Focal Group Discussion (FGD) for collecting the required

information. After completion of receiving the information, he requested SRSO District Manager to support in identification of focal person. District Manager responded with briefing that Peoples' Poverty Reduction Program (PPRP) is Government of Sindh financed program that is implemented by Sindh Rural Support Organization (SRSO) who works through steps of three tiers social mobilization i.e. Community organization (CO) at sub-village level, village organization (VO) at village level and Local Support Organization (LSO) as apex body at union council level. He added that its prime responsibility of LSO to support at sub-village

and village organization in perspective of improving livelihood option. They extended awareness and support community on need basis according to request and betterment. He suggested that plate forum of Local Support Organization (LSO) would be ideal focal person to disseminate awareness who could easily approach to community due to be in integration. They have been successfully linkages with other Government department and working in

integration.

Mr. Ayuob Program Officer (PDM) shared that ToT will be proceeded with focal person so it would be better to utilize plate forum of LSO.

In the end, it unanimously decided that LSO plate forum would be nominate for training of Disaster Risk training.

IGG Amount	3,528,500

Life is name of Change

Ms. Shabana 29 years, with 13 PSC score, resident of village Navo kolhi. Shabana is a member of community organization Navo kolhi.

"It was very difficult for me to give two times bread to my 05 kids after the sudden death of my husband. My life after my husband's death was miserable for me; no one was ready to become the lender of last resort for us. Under these conditions, I could not even provide them simple food and clothing. Being a member of community Organization I got community investment fund, under the PPRP-SRSO, funded by Government of Sindh, she was provided support on the recommendation of her CO.

Shabana prepared a business plan to run a small shop. Shabana got CIF Rs12000 to establish her shop. She started the enterprise in her house and since this time it has undergone reasonable growth. She is focusing on daily consumable domestic goods. The family's daily income is now 500-600, and they save 150-200 In time, the family hope to expand the business. Life remains a struggle but the family now have more hope for the future. The family paid the vote of thanks to PPRP - SRSO and Government of Sindh.

Entrepreneur Women

Ms Sahiba with poverty score card 17 from village toto kolhi, uc kadi kazia, District Badin.

Ms.Sahiba shared that when Community Investment Fund given in her Community Organization through SRSO. they requested their VO for appraise them for interest free loan as she wants to help their husband, to earn something to uplift home. She got CIF, amounting 15,000/. Ms sahiba's husband already running a business of" **rice kanta**", but their income was very low to bear their household needs, their after Ms sahiba decided to receive CIF from co, Ms Sahiba received Rs. 12,000, from which her husband also started wheat and cotton business on" rice kanta" on main Karachi road Badin.

Moreover, Ms sahiba said that before taking CIF my husband runs only rice kanta but now my husband also sells and purchase wheat and cotton on rice kanta. Now we both have our own kanta and we earn 2000-3000 on daily basis and save 200-300, today, sahiba living a happy life with their kids and husband, a healthy life is a sole provision to their family, earning enough bread for their household and saving something for future too.

She said that Allah gave them courage to stand firm in the difficult situation and that SRSO came as a way to get out of that dark night.

Poverty Score card Survey

As per re-revised PC-1, and new tasks, SRSO MER has initiated the Poverty Scorecard Survey for new talukas of existing districts of PPRP Programme Which are Thari Mirwah, Faiz Ganj and Naara of district Khairpur and Ghora Bari of Thatta and Pithoro of Umer Kot.

The survey is android-based CAPI-Computerized assistance based personal interviews. The Ncollect named application is formulate for data collection at field level at rural household level.

In this regard, Poverty Scorecard Census survey has initiated prior to the initiation of social mobilization process in PPRP Programme. PSC is a standard, simple, effective and low-cost tool to identify the poor and targeted households for a specific intervention or Programme.

MER (Monitoring Evaluation and Research) section based on its previous successful experience of undertaking PSC survey through Computer Assisted Personal Interview (CAPI) method in different union councils of 6 districts..

The PSC survey is carrying on through computer-assisted personal interviews (CAPI) directly at the household level using the Android Tablets system for real-time reporting. SRSO organized formal orientation training for newly hired enumerators in different phases, prior to the starting of data collection at household level in the field using the computer-assisted personal interviews (CAPI) method.

Before Initating the PSC survey, the training was conducted at every district and training was comprised of two days i.e. day-1 was for indoor sessions covering the various Enumerators Guideline, tools and methods of CAPI and 2nd day was spared for field demo in order to check the understanding of trained enumerators on methods of data collection.

District Name	Name of Talukas	No of Ucs will be covered	No.of Teams involved in PSc	No. Of Enumerators	HHS Survyed	No. Of Ucs Completed
	Faiz Ganj	10	2	46	9,079	4
	Thari Mirwah	13	2	42	14,747	4
Khairpur	Naara	6	1	22	9,411	3
Thatta	Ghora Barri	8	1	25	4,738	1
Umer Kot	Pithoro	7	1	25	8,731	2
Total		44	7	160	46,706	14

During the reporting period, a total of 46,706 households are surveyed with the support of 7 PSC teams including 160 enumerators,7 supervisors,7 forward campaigners and 3 monitoring person in both Programme districts.

There are few unique features of PSC

- Household level tagging of surveyed, refusal and not available.
- **For surveyed:**
- **GoS/PPRP/SRSO/PSC/HH-1/Name/Date**
- **For Refusal**
- **GoS/PPRP/SRSO/PSC/Refusal and x mark /Name/Date**
- **Not Available**
- **GoS/PPRP/SRSO/PSC/HH-Na/Name/Date**

- Village directional Board tagging, when village is completed and all the surveyed HHs quantity is written at the board

CIF Impact Assessment Survey

SRSO MER section has initiated the CIF impact survey of CIF beneficiary having completely repay their amount and VO has cleared their due and recovery from all beneficiaries.

CIF Impact Assessment Survey Introduction:

The GoS PMU steering committee directed the SRSO PIU PPRP that conduct Human Capital, Financial Capital and not only does it provide access to much-needed capital, it also builds the confidence and capabilities of poor rural women.

Survey Details: This survey is carry out under the Peoples' Poverty Reduction Programme funded by Government of Sindh. The PPRP is a Sindh government funded initiative, which started in 2017 in six districts, which entirely aimed at the poorest of women. The total budget of the project is Rs. 6.3 Billion.

The PPRP also consists of social mobilization, Low cost houses, vocational training program, and a partnership for between SRSO and the district governments and vocational skills training.

The assessment looked at three districts, Badin, Sanghar and Mirpurkhas. The assessment explored two major dimensions of the CIF Programme; whether the Standard Operating Procedures (SoPs) of CIF were being followed and secondly to assess what the impact of CIF was and its feedback from beneficiaries and members for the proper utilization of CIF as per household level micro investment plan.

Concerning the findings up to now the surveyed beneficiaries' feedback, the assessment found that the Programme implemented in accordance with the SoPs laid down by SRSO, which detail the procedure for each step of the CIF Programme. The

The efforts made by SRSO in relation to forming responsible and active community organisations, i.e. Cos and VOs was highlighted by the regular number of meetings and extraordinarily high attendance of

members.

Dissemination of information, objectives and purpose of the CIF Programme had done more so with the VO rather than the CO; shown by the fact that the VO leaders had a higher understanding of CIF objectives in comparison to the CO leaders.

The assessment also found that the true spirit of CIF had implemented on the ground in the sample area, with the decisions regarding CIF loans being entirely in the hands of the community members. The beneficiary herself undertook a majority of decisions while some decisions such as amount of loan decided in consultation with all members (in order to ensure that the maximum number of poorest women obtained CIF loans).

The transfer of money within the CIF Programme also followed in accordance to the SoPs in order to ensure that the fund does not find itself at risk. All the loans provided in the form of cheques to the beneficiaries.

The assessment also found that not only did the members ensure the security of the fund during distribution of loans but the beneficiaries had received also once loans. All the COs and VOs said that follow-ups' regarding the utilization of loans was important; resulting in the fact that 98% of the beneficiaries invested their loan for the purpose they had stated during their application process.

Below is details of CIF study Sample

District Name	Total Vos	No. Of Beneficiaries'	Sampled # of Vos	Sampled # of Beneficiaries'
Badin	76	926	8	74
Mirpurkhas	48	1,035	5	83

JULY 2019

PEOPLES' POVERTY REDUCTION PROGRAMME FUNDED BY GOVERNMENT OF SINDH

Struggle IS NAME OF SUCCESS

Name : Banak
CO Name: Inqalabi
VO Name: Rukhsar

Miss Banak hails from a village named Bhaji Rind Union Council Haji Mitho Bhanojo Taluka Shahdadpur district Sanghar. She belongs to an extremely poor family and peasant by profession. When PPRP program came ta their village and she became a member of community institution and started learning the new practices to improve their lives. As she was inherited from a skills and art of stitching clothes so she develop her household level micro investment plan for enterprise to open a stitching business at home level for villagers' for demanding to the concern Community institution (CO and VO) for CIF. Indeed, she successfully received 15000 CIF amount and as per Micro investment Plan, she purchased a sewing machine in Rs: 8000 and remaining amount had been used in purchasing the clothes on daily basis for earning the money.

Now she is sewing the neighbors' clothes and whole villagers' cloth as well as to increase her income, now she is able to earn in average Rs. 300 on daily basis. Now she is earning a good amount that she have benefit in improving the nutrition and schooling of children.

She is happy and thanks SRSO and Sindh Govt for facilitation and providing such kind of opportunity at doorstep.
