## 1. Executive Summary

This month report depicts the monthly progress of PPRP Districts project activities carried out with fundamental ingredient of social mobilization: CO/VO/LSO formation, their routine and follow up meetings with the practice of saving, community initiative through community institution platform with further Programme interventions to targeted households'. PPRP is the only Community-driven Women development Project seek to empower communities, reduce poverty, and improve economic and social conditions of the poor, typically in rural and remote areas. Community Driven Development addresses two persistent gender gaps: (1) women's lack of voice in public and home decision making, and (2) their poor access to basic living facilities' and income generation sources' and developing their capacity to survive in the fittest ambiance. PPRP is implanted on "the principles of local women empowerment, participatory governance in community institutions', demand responsiveness, administrative autonomy, and enhanced local capacity."

There were also community institutions leaders' conference for interacting and brining three pillars: political, administrative and social pillars collaboratively at one platform of MAC managerial activist conference that community institution leaders can share their progress, learning experiences and issue to be resolved at this platform. The targeted community is also getting many benefits through intervention of CIF Community investment Fund, IGG and LCHS.

**Social Mobilization:** The basic pillar of development and foundation of eradication rural poverty among marginalized rural women to fold themselves into community institutions at the community level on Parra, village and union council. In order to accomplish this, SRSO conducted "Poverty Score Card" exercise in projected union councils in 6 districts to help identify the poor and the poorest. Fostering the women into CO/VO has been at peak in the six districts areas and the rural women of these areas have shown their keen interest to uplift their living standard by formation of community/Village organization, Selection of honest and dedicated community institution leaders, conducting monthly meeting, doing exercise of saving and operate their organization for development of human and society to alienate the poverty at household level by generating new sources of income at HHs level therefore all women are familiar with the objectives behind the formation of VOs and COs, and therefore participate actively in every exercise carried on through PPRP Programme. In all the Cos and VOs officeholders were selected in consultation with the community members in a democratic way which is also a sign of self-governing learning and ownership of PPRP by the community. Another encouraging sign of the democratic process

**Peoples' Poverty Reduction Programme**

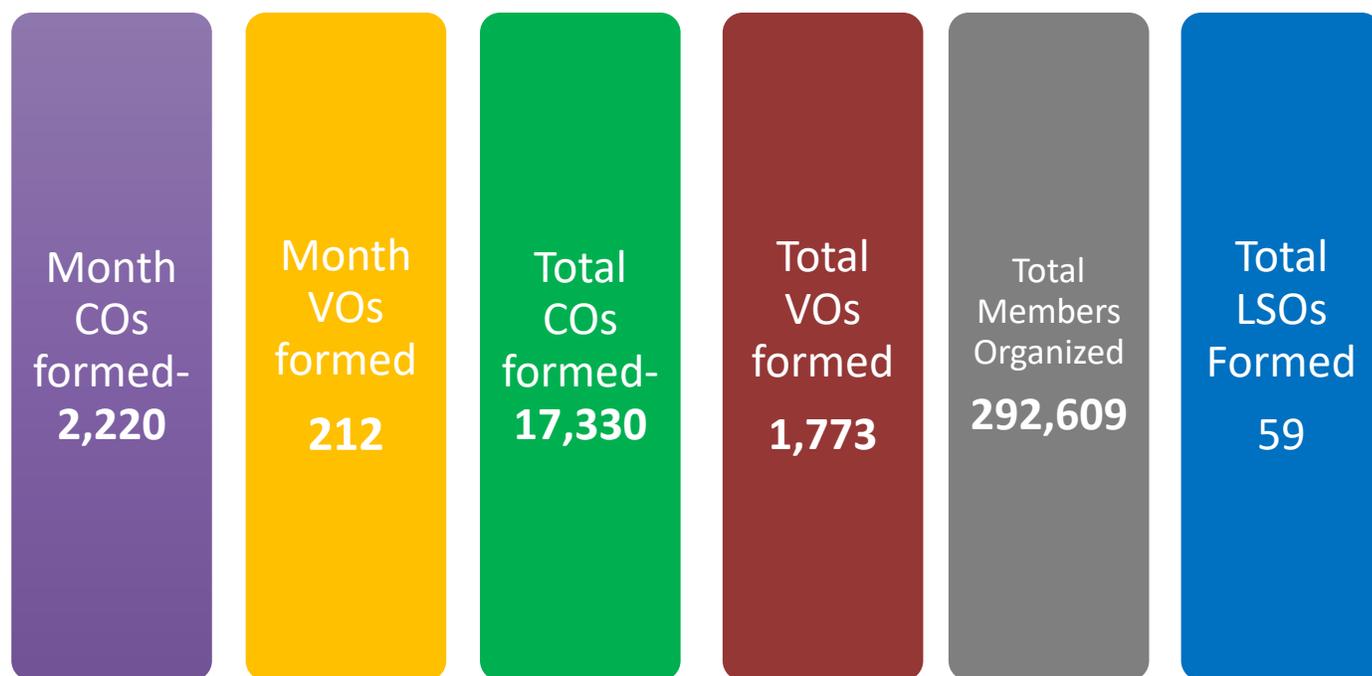

**Funded by GoS-Planning & Development Department**

is the Participation of the members in PPRP activities in the identification of the Programme activities for their VOs and COs.

During this Month, the Social Mobilization progress from inception until 30<sup>th</sup> November 2018, a total of 292,609 households organized and fostered into Community organization a total of 37,169 in a month with a cumulative from the inception of Programme and after the maturity of Community organizations (COs') these were further federated into village organizations' (VO), a total of 212 VOS formed in month and cumulative figure is 1,773. Furthermore, the managerial, capacity building and getting many boosted training of these community women they are further federated into last tiers of Social Mobilization that is Local Support Organization in which this month a total of 11 LSOs was formed and cumulatively 59. After maturity of the Community/Village Organizations, that have developed their managerial and

governance systems as they undertake more and more development activities. Their institutional maturity and their ability to influence government and other stakeholders have been built over time. The clustering of Village Organizations (VOs) leads to the formation of Local Support Organizations (LSOs) which represent the second generation social mobilization”.

**Community leaders Capacity Building Trainings:** Besides the social mobilization, many other activities were carried out in projected areas: CMST (Community Management Skills Training Programme), VO management and Planning Training, CIF Appraisals' and monitoring training, and many other managerial pieces of training for community organizations' (CO/VO/LSO) office bearers were held to train and uplift

these Cis. Managerial Activist Conference (MAC) of community leaders and activists that are willing to uplift the community from poverty and have a spirit to work under the community institution platform (CO/VO/LSO) with the technical assistance of SRSO. In a month, the VO leaders Training Vo management and Planning training (VMST) was also arranged at District Offices along with three days training on CIF appraisals and monitoring training. In Khairpur CRPs were identified, interviewed and their three days CRP Capacity building training was also conducted with the assistance of IMSD.

**Vocational Training Programme:** Vocational Training Programme which is job oriented was started in all districts: Khairpur, Sanghar, Badin, Umer Kot, Mirpurkhas and Thatta for the youth of the rural community to empower the society with their skills that they possess just need to polish their skills and have a systematic training process by trained trainers' with their profession which can be a source of income generation at household level.

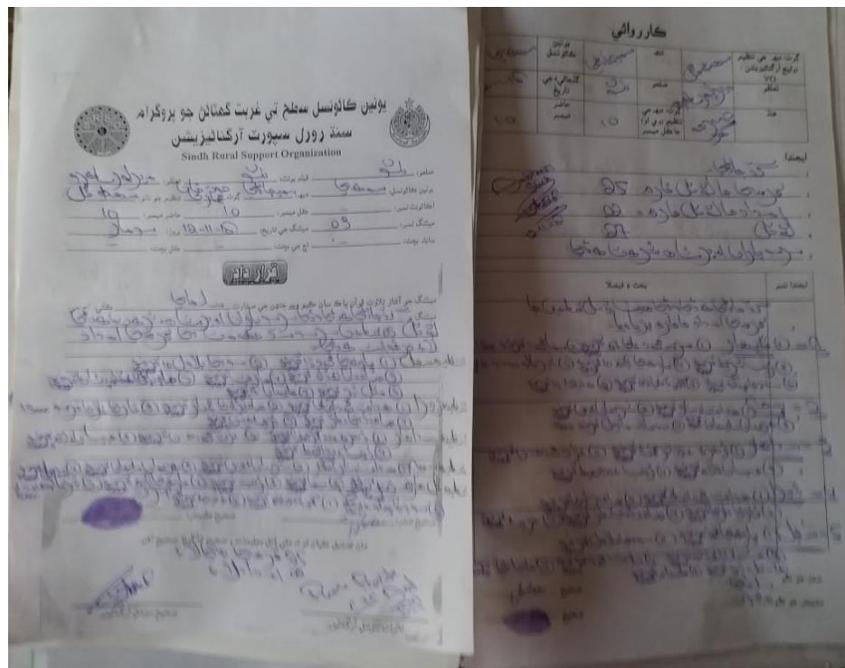

A large cadre of rural men and women will be trained through a wide array of vocational trades and skills: a total of rural women have been certified and trained in different trades at Khairpur, Sanghar, Badin, Umer kot, Mirpur Khas, and Thatta, currently there is a huge batch has been enrolled in different trades in District by establishing Vocational Training Centers at community level through IMSD (Institute of Management and Skills Development-a subsidiary of SRSO for improving the skills of community members, especially the poor, through vocational training skills will help contribute towards labor force participation, but the most important factor is connecting the training skills with the needs of the market.

**Community Investment Fund:** During this Month the **CIF (Community Investment Funds)** cheques were Distributed among the rural and poor community in all districts Khairpur, Sanghar, Mirpurkhas, Thatta, Umer Kot and Badin against their Micro Investment Plan (MIP) as per their need and livelihood plan. Community investment Fund cheques were also distributed among 4,501 beneficiaries in 6 districts: Khairpur, Sanghar, Mirpurkhas, Umer Kot, Thatta, and Badin. Income generation grant cheques were also distributed among 608 beneficiaries.

**Record Keeping:** Community Institution's record keeping is the first and basic need, therefore the literate female is the main assets of these community organizations. therefore the Fostered Community has also maintained the updated record and doing the practice of saving which is a positive sign of project during their initial phase because the organized community is self-aware regarding recording the documentation and Record keeping has significantly a good sign followed by the community in PPRP Programme in last two months. All fostered COs and VO's had their required registers and books available at the time of the formation, and all CO and VO records were fully maintained updated until the end of the month. This exercise of record keeping by the community and Social Mobilization teams is attributed to the continued process of follow-up and guidance with dedication and commitment by projected teams of SRSO. This shows continuity in SRSO's efforts to inculcate transparency and accountability within the COs.

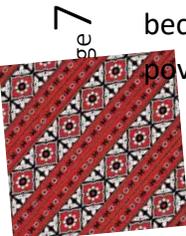

**Low Cost Housing Scheme:** In Three districts: Sanghar, Khairpur and Mirpurkhas the low cost housing scheme has been started and engineers are busy in construction of houses. The Cheques to beneficiaries are given into installment after technical assessment and viewing their willingness to construct house at concern place/plot where they are ready to construct the house.

**Monthly Progress Review and Planning Meeting:** In the first week of this month, the 6 District consolidated Planning & Progress Review meeting was held at SRSO District Office Sanghar. This meeting was chaired by CEO-SRSO and TL-EPPRP. In which, all the field teams including Social Mobilisers shared their progress challenges and shared their next month planning as per PC-1 Targets. CEO-SRSO & TL-EPPRP appreciated the achievements' of Field teams and encouraged to go forward with the same movement by maintaining quality work and SoPs. In this meeting, all district Managers, M&E officers, HRD Officers and concern district all staff participated in the meeting. The meeting was chaired by TL-EPPRP Mr. Ghulam Rasool Samejo. All DMs shared their District Progress and next month planning of targets achievements. M&E officers shared the Field monitoring visit areas of improvements and their compliance status at field level. Overall this meeting was a detailed review of all districts achievements' against the set targets. In last the Next PPM venue was decided and encouragement of Staff with the ending note was ended that the Achievements' can be achieved through dedication, commitment and become an aspirant to work in the community and you are working for a noble cause to alleviate the poverty from destitute households.

## Peoples' Poverty Reduction Programme

Funded by GoS-Planning & Development Department

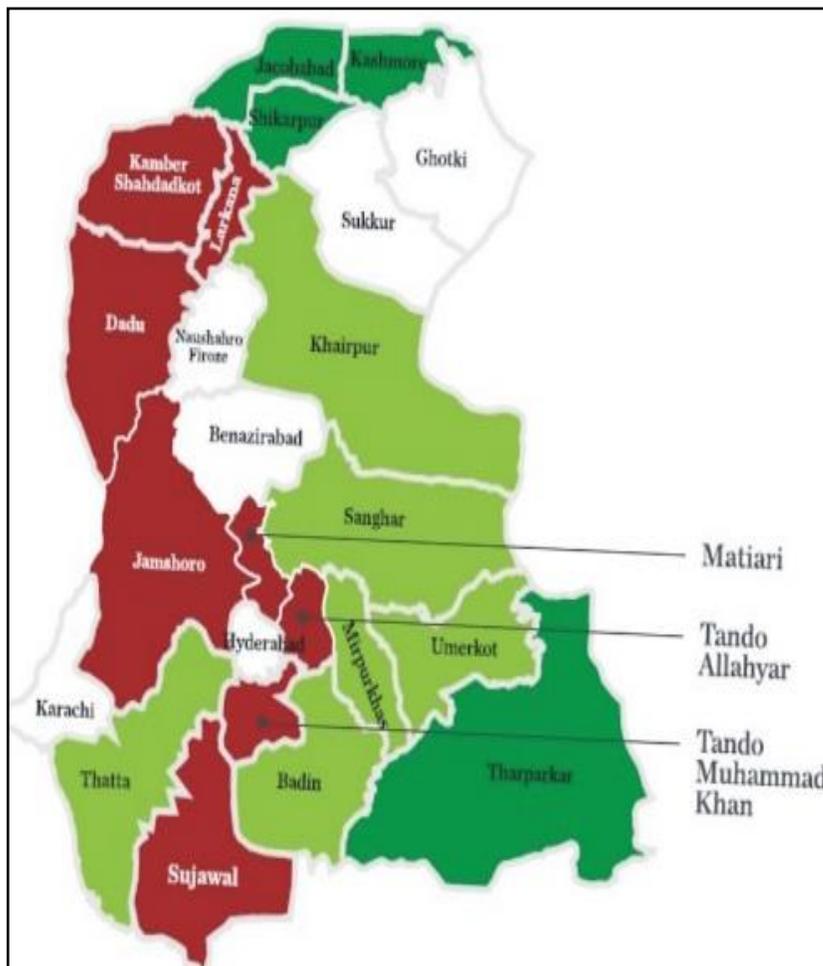

## PPRP (Peoples Poverty Reduction Programme)

Peoples Poverty reduction program is one of the main pillars for the community driven development from their need analysis and women empowerment is only possible with household approach by strengthening the community and households at initial unit of administration which is Union council level, so Government of Sindh has further extended the Peoples Poverty Reduction Programme (PPRP) which is a 1st Union Council (UC) based Poverty Reduction model of Pakistan and that was a big community development initiative to poverty reduction at the rural and unprivileged community of rural Sindh by Government of Sindh.

This was an initiative of Sindh Rural Support Organization (SRSO) and the Government of Sindh for the alleviation

of poverty through participatory approach at the household level. The Programme has successfully completed the 1st phase with golden words of success stories and poverty graduation among the rural community in projected areas which are a real witness to the success of the programme. Later the European Union also replicated the same model and extended this Programme into 8 districts of Sindh with a Programme titled as SUCCESS. This Programme has been designed to alleviate the poverty of targeted communities of the poorest in rural Sindh. In the year 2016-17 GoS has included the PPRP for further 6 districts in Annual Development plan which was started in June-2017 in districts: Khairpur, Sanghar, Umer Kot, Mirpurkhas, Badin and Thatta with a financial assistance of 4.9 Billion by Government of Sindh.

The primary objective of PPRP is improving the quality of life of the rural communities, especially that of the poorest of the poor by an identification tool of Poverty Scorecard (PSC) Survey which was an android based with a Software that collects the data and GPS coordinates for tracking purposes by writing all the details in the survey to provide technical assistance through this Programme to alleviate the poverty. Later, the heart of all activities through the main conceptual package of Social Mobilization starts in these communities that have been identified for future Programme interventions. The process of Social

## Peoples' Poverty Reduction Programme

Funded by GoS-Planning & Development Department

Mobilization this involves organizing rural communities into “organizations’ of the poor” at the community, village and union council level. This structured approach entails organizing rural communities into 'organizations’ of the people' at the Mohallah (neighborhood) level into Community Organizations’ (Cos) and then into a federation of these COs to Village Organizations’ (VOs) at the village level. These VOs are then federated at the union council level into Local Support organizations’ (LSOs). These organizations are formed and owned by local communities, and undertake a wide array of development activities such as village-level community Investment Fund (CIF), income-generating Grant (IGG) initiatives, VTPs and social sector Programmes, with the technical support of the GoS. PPRP in Sindh has some unique features.

First, the Programme is focused on women and the poor and poorest households, identified through a Poverty Score Card (PSC) survey. Second, the Programme is the first ever major project of the GoS that is being implemented through community participation. Third, the Programme is highly intensive in its development packages and coverage and is concentrated at the union council level. Last but not least, the Programme very quickly covered the Programme union councils by organizing communities: most of its targeted activities have been implemented within only 6 months i.e. PSC survey has completed successfully which was a huge task. PPRP aimed to remove common hurdles faced by the poor that

## Peoples’ Poverty Reduction Programme

Funded by GoS-Planning & Development Department

weaken their social capital: it seeks to create economic/productive assets through a self-help methodology by providing access to community managed microloans, income-generating grants, and creating employment opportunities by training youth in technical skills and engaging the trained Pax into different industries for jobs perspective.

The Peoples' Poverty Reduction Programme (PPRP) is based on the three tiers social mobilization approach to alleviate the poverty through uplifting their living standard by realizing and unleashing the real potential of the rural community by empowering the women who are the real driving force of generating new economic resources for the household. SRSO being an implementing organization of this Programme from the starting of the UCBPRP from 2009 which has driven their real hallmark and depicts the real success of Programme by **50%** graduation of intervened community through different interventions of UCBPRP Programme mainly through CIF.SRSO has firm belief that each rural poor household has their own innate potential to improve its condition, however, the household faces constraints that do not allow it to realize the potential. If these rural people especially rural women are organized in order to enable them to have a collective thinking and actions for the development of society and act upon their consensus decision to alleviate the poverty that is existing among their households

## Peoples' Poverty Reduction Programme

Funded by GoS-Planning & Development Department

collectively think and act upon their development. Therefore PPRP is based on Social Mobilization approach which consists of the organizing of communities in rural into three tiers community institutions'. At the first tier, these communities are organized into Community Organizations (COs) which are organizations' at the neighborhood or Mohallah level.

These COs consist of membership from **15 to 25** households on average. COs ordinarily carry out activities such as household level development planning, training, savings, and credit. At the second tier, the COs federate at the village level into a Village Organization (VO). Membership of the VO normally consists of two nominated members from each CO in the village he activities of the VO are to work on development activities which run across the village such as community infrastructure, partnerships with local government and other agencies, and on issues which affect the entire village. At the third tier, VOs federate at the Union Council level to form a Local Support Organization (LSO).

This PPRP is Designed especially for those new Households to the poorest community for their development as other districts women have changed themselves, this Project also serves as a step to change their lives by uplifting their living standard through small initiatives and resource for those who don't engage in their rural women for as a financing source for their household regularly or those who would like to consider new source for income generation or new tools for overcoming upcoming inflation waves for survival. GoS and SRSO hope that the community value this material and can apply its content to community development work so you, too, can come up with the money for your next initiative.

This apex organization consists of membership from the VOs in the entire union council and is responsible for coordinating with its membership base to construct a development agenda for its members. It is also responsible for networking and developing linkages with external organizations' such as local government, donors, NGOs and the private sector for the purpose of achieving its development agenda. The potential can be harnessed if the poor households are mobilized to foster their own network of organizations' at Mohallah (Community Organizations – COs), village (Village Organizations – VOs) and union council levels (Local Support Organizations – LSOs).

Once the women from poor households are organized, they prepare Micro Investment Plans (MIPs) wherein they highlight the potential income generating activities that they can undertake on their own, the constraints they face and how these constraints can be removed. SRSO provide Community Investment Fund (CIF) to these organizations' so that they can provide small loans to CO members for the implementation of MIPs for income generation. While COs focus on income generating activities, VOs focus more on broader issues that affect the whole village, e.g. education, health, infrastructure, etc.

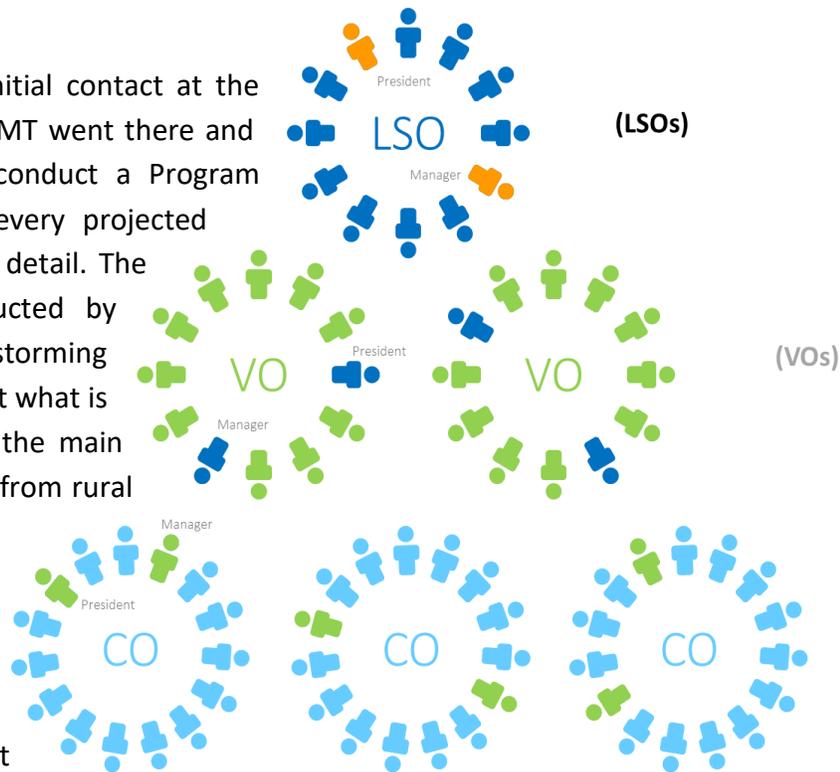

## Social Mobilization:

### Programme Introduction (PI) of PPRP

The Social Mobilization 1<sup>st</sup> step starts from initial contact at the village after the PSC survey results, later the SMT went there and collect all households in a gathering, they conduct a Program Introduction session about the program in every projected settlement to tell them about the program in detail. The Programme Introduction sessions are conducted by teams, they initiate the session by doing brain storming of rural women with participation approach that what is poverty and where is it lying? And what are the main causes of poverty and how can it be alleviated from rural areas. He vividly define them that what SRSO has brought for you, he told them SRSO has brought a Programme with the financial assistance of Government of Sindh, so we will not do any work that is government or government institutions' and departments' are doing we are only here for you just a bridge for GoS intervention to household level because Government could not reach out at every household level.

They added, Pakistan is also suffering from high poverty rate but poverty is existing worldwide. we cannot say that any province of Country has no poverty but in Pakistan Actual poverty is existing at Rural areas and especially at the household level; only a mother knows when her children are hungry, out of school, ill, and without shoes. So, if poverty is at the household level then actions have to be taken at the household level. However, despite doing a great deal of work, all these hundreds of government departments do not, and cannot, reach out to the household level where actual poverty exists and is being experienced 24 hours a day. Therefore, Government of Sindh has brought a revolutionary Programme for you people but there are three conditions that are compulsory to alleviate the poverty because it is the real witness of your success.

Whereas, which are 1: foster themselves into three social mobilization, 2nd choose honest and dedicated community institutions leaders that can give you time and run the institute with willingness and commitment and 3rd is the exercise of saving at household and CO level because these things have set a remarkable milestone in alleviation of poverty in northern areas of Pakistan and In Sindh also. Furthermore, he said that after the success of the first PPRP in two districts namely Shikarpur &

## Peoples' Poverty Reduction Programme

Funded by GoS-Planning & Development Department

Kashmore@Kandhkot, where thousands of the people were mobilized and graduated at poverty level with same this Programme.

Later, the rural women show their willingness that there are ready to do for their future generation and for their families and they have skills to do more to alleviate the poverty but need your guidance and assistance. While asking examples that what they possess that can alleviate the poverty, they said that they have minimal resources at the household level: small ruminants or a share in cattle/buffalos, knitting/stitching skills, etc. These can be a small piece of land, some livestock, some skills, family members, or some small savings.

Women showing their keen interest that they have many skills which are underutilized due to not having resources and potential to do but slightly need to polish and improve the management of the resources of the poor households through which their source of income generation can increase because the money is the main source of alleviation of poverty and if money came into house then it automatically turns the living standard of poor. They quoted several potentials i.e. Vocational Trainings for their daughters and sons, vocational training for themselves i.e. Tailoring, Stitching, hand embroidery, applique, and beautician.

The gathered community women and men agreed upon a single point of having some resources, and that their management can be improved. At last all community women speaks about their poverty and shown keen interest to work with SRSO and foster themselves into CO/VO/LSO.

**Community Organization (CO), VO & LSO Formation Activity** Social Mobilization is mainly

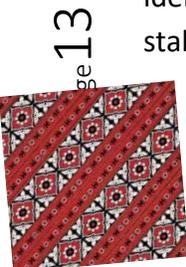

to mobilize the community about a big idea that is going to hearten them for their development and uplift their living standard through a successful experience of organizing themselves into community-level institutions: CO/VO/LSO. SRSO in last PPRP Phase has been proven to experience that when community-owned organizations' are financially and socially viable initiatives that can play a pivotal role in the process of social transformation. Because this will create a social awareness and thinking pattern change through which a cumulative thinking and realizing their potential will be ignited and work automatically being a self-reliant and own initiative for the development of society. As part of the PPRP Programme, Community Organizations' (COs), Village Organizations' (VOs) and Local Support Organizations' (LSOs) will be formed to create local level domination organizations owned and operated by the community, especially rural women.

Now the SMTs are going into village and after conducting the Programme introduction briefly tell them about the importance of CO/VO/LSO, whereas the community has also told that how these organizations will help you in future that these organizations' are expected to play an important role in identifying problems and offering solutions, with the help of the government and other development stakeholders at community level through this platform for community-driven development.

**Peoples' Poverty Reduction Programme**

Funded by GoS-Planning & Development Department

As SRSO is playing a vital role between GoS and Community so the Core activity of all interventions is the Social mobilization approach in PPRP to identify the poor in order to enable them to participate directly in decisions that affect their lives and prospects. The concept is to build capacities of people to organize, manage their own organizations'. In this Programme of PPRP SRSO, social Mobilization teams provide technical and social guidance and financial assistance to the rural poor based on a standard three-tiered social mobilization approach for the alleviation of poverty which is the basic mandate of this Programme. The social mobilization approach, it mainly depend

on trust of poor women that this will be a social change agent by they possess the skills that can be utilized very well just need to polish their skills and have an innate potential to help themselves, that they can better manage their limited resources if they organize themselves into their own institutions (CO/VO/LSO). Once people are organized into properly functioning institutions of their own, they find the platform to harness their potentials, address their problems and fulfill their needs. When such institutions of the people are fostered at the neighborhood, village and union council levels, they become a vehicle through which all kinds of community development initiatives can be effectively implemented. These institutions serve as the primary partners in fulfilling the nation's development agenda by extending outreach to the household level across the country, for it is at the household level that poverty is experienced on a daily basis.

Above all importance is briefly discussed before the formation of CO at Community level and SRSO is conducting this activity with a niche approach of completing the UC wise and after maturity, these Cos are federated into VOs where the Cos managers and President join the VO at the village level. Furthermore, as Community Organizations' (COs) are the foundation of three-tiered institutional neighborhood level institution comprising of 10-25 member households. COs are federated into Village Organizations' (VOs) for planning and coordination at the village level.

the network. The CO is a comprising of 10-25 member households. COs are federated into Village Organizations' (VOs) for planning and coordination at the village level.

## Peoples' Poverty Reduction Programme

Funded by GoS-Planning & Development Department

Managerial Capacity Developing of Rural Women and providing vocational skills training at community level

## Capacity Developing Training of CO/VO (CMST/VMST)

In PPRP the VMS/CMST is designed for presidents and managers of Community Organizations for the purpose of mobilizing and strengthening their capacities to identify their problems and decide priorities on their own. The event is organized when COS and VOs formally started conducting meetings monthly and at least two months they have conducted meetings and practiced saving exercise at the household level. This training aims to enhance the knowledge, skill, and capabilities of the participants in planning and managing their developmental activities and to utilize the available local resources as well. It provides the participants an opportunity to build their capacities to break the vicious cycle of poverty by undertaking the poverty reduction and income generating activities on their own according to the community needs.

## Vocational Training at Community level (Employable Skills Training)

Sindh is contributing a lot in youth employable skills and providing training cum job skillful trainings because youth population in Sindh is estimated at 55.7 and out of this youth population 1.7 million are unemployed. A large group of youth is unemployed as they do not have skills to compete in the job market due to different circumstances i.e. quality of education, low literacy rate, having not good school infrastructure for formal education. Therefore, Skills development is an important step to promote employment generation through employable skills training; as it will increase in number of skillful youth would increase per capita income, thus give boost to economy of province. During this project, SRSO has

groomed youth in many employment trades priority given to women and females for empowering their role in contribution for poverty alleviation through social mobilization community institutions (CO/VO/LSO) and shaped the youth as an economic asset for their households. During 4 months trainings at different districts names for ensuring implementation of quality vocational standardized skill development training so that each man and woman would get equal opportunity to get benefit from this intervention at community level. This successful ending of trainings has brought lucrative results in human resource development at community level in wisdom and knowledge development for way forward career. For This Component we were financially supported by Donor GoS-EPPRP, the detailed achievements' of 6 districts are mentioned in sheet.

### DISTRIBUTION OF COMMUNITY INVESTMENT FUND (CIF) and IGG

Under the PPRP Programme Funded by GoS, the first round of Community Investment

Fund (CIF) was distributed in the fostered Village Organizations' (VOs) which have conducted the Vo management and Planning training for 3 days, CIF appraisal and Monitoring, Book keeping and CO accounts auditing training to VO leaders to write down the main activities of CIF and IGG in their community institution registers for a proper record in all districts of project including: Sanghar, Mirpurkhas, Khairpur, Badin, Umer kot and Thatta during the visit of CEO-SRSO, Mr. Muhammad Dittal Kalhoro in Mirpurkhas, Sanghar, Badin and TL-EPPRP In Khairpur. CIF is one of the main components of the Government of Sindh Funded Union Council Based Poverty Reduction Programme and is targeted at the women from poor and poorest households. A capital grant is provided by the SRSO VOs or Local Support organizations' (LSOs), and is used by those community institutions (CIs) as a revolving fund.

## Peoples' Poverty Reduction Programme

Funded by GoS-Planning & Development Department

## Managerial Activist Conference (MAC)

SRSO district Offices organized MAC (Managerial Activist Conferences) for the organized Households, Community Institutions office bearers and Community resource Persons, Volunteer, activist to highlight the village level issues and collectively find out the solution with the assistance of three pillars officials: Political, Administrative and social conference will be a bridge

officials'. The to have a result-oriented interaction within political, government, & social pillars to create the platform for these organized rural women and their community institutions (CO/VO/LSO), the conference will be a social change agent for social pillar to be aware all government and non-government stakeholders that will assist the community. Whereas, this type of conference provides the basic opportunity to collectively identify the social and

administrative issues that creating hurdles to

**Peoples' Poverty Reduction Programme**

Funded by GoS-Planning & Development Department

alleviate the poverty on the village level. Furthermore, this conference is a way to try to get attention and closer coordination with all stakeholders for community-driven development with the technical assistance of SRSO.

The workshops were attended by community members, District Government officials, Women Development, Assistant Deputy Commissioners', Social Welfare departments, Local Government members, and Different stakeholders' officials. The day was dedicated to highlight the importance of women mainstreaming in development and presenting first women empowering Programme as role model for active and equitable rural development to alleviate the poverty at household level with self-assistance and belief with new sources and ideas and willingness to work through the community institutions' platform with a cumulative development of society also. 200 women community activists and leaders from 50 villages participated in the workshops in three districts: Khairpur, Sanghar, and Thatta. Women leaders of COs and VOs made a presentation about the process of social mobilization and institutional development in their communities and also highlighted that many of them have begun to take small self-help initiatives for their own development. All the Administrative and Political pillars speakers told the community that with a collective approach you can reduce the poverty from your homes and SRSO is brought this Programme for you and said that this rural women gathering is the most encouraged by the women who have fostered themselves into community institutions' (CO/VO/LSO) and have made huge change within such a short time in their village. Furthermore, they also appreciated the women's keen interest in improving education and health. District and Local Government officials added that their administration will provide full support to the rural women for their development. Through the CO/VO/LSO social mechanism, the government line departments have an opportunity to extend their outreach and that he will encourage the departments to work closely with SRSO and the women's of COs/VOs/LSOs. In Last, all rural women speakers highlighted various self-help and awareness

## Peoples' Poverty Reduction Programme

Funded by GoS-Planning & Development Department

interventions on promotion of health, hygiene and education which can brought a big change with the technical assistance of some government and non-government departments and they also emphasized the un organized women that there is a dire need for fostering and strengthening community institutions so that the social pillar is enabled to complement government's political and administrative pillars.

## Low Cost Housing Scheme

The grant of Issuing houses to beneficiaries is the main package of PPRP Program. The COs identified needy households through PSC having Score 0-11 for construction of LCHS and passed resolution to SRSO for LCHS. Field staff held the meeting with community members and discussed about LCHS. LCHs are initiated in the month of November. Identified LCH from which verification of LCH done by engineer and TOP signed with member as per community need and PSC criteria.

## Income Generation through Vegetable Growing.

### Tunnel Farming:

Under the PPRP Programme, the new creative initiative has been initiated for empowering women through encouraging for women entrepreneurship so the tunnel farming has been introduced at community level with the financial assistance under Enterprise development head. Under this head the one Business development of 6 women formed who are organized under the CO/VO and now they are part of BDG which are total six members. Moreover, they have given 140,000 in installments for purchasing of the land and further they are the beneficiary of CIF from which they purchase seed and pesticides' along with other material.

As our rural community is mainly depended on agrarian land so they have brought this new off season farming of vegetables' because Vegetables are rich source of vitamins, carbohydrates, salts and proteins with increased health awareness in the general public and changing dietary patterns, vegetables are now becoming an integral part of average household's daily meals.

In addition, high population growth rate has also given rise to high demand in basic dietary vegetables. Increased health awareness, high population growth rate, changing dietary patterns of increasingly affluent middle class and availability of packaged vegetables, has therefore generated a year round high demand for vegetables in the country in general and in major city centers in particular.

However, our farmers have yet not been able to encash this opportunity and still follow traditional sowing and picking patterns. Pakistan population is increasing with the passage of time; with the increase in population residential colonies/ residential area are being increased. By this increase the agriculture land has been decreased and every person think about, how the demand of food can be satisfied. In the absence of storage infrastructure and vegetable processing industry in the country, off-season vegetables farming is the only viable option that can add value to the farmer product. There is a huge demand for fresh vegetables in the local as well as international markets.

The facility of growing off-season Vegetables also allows for growing non-conventional Varieties and vegetables, which are in high demand in the international market. The importance of vegetables cannot be denied due to their nutritional value. Vegetables are used in raw form as salad or cooked food according to the taste, which provide a balanced diet and keep human being healthy. A large number of world population now prefer vegetables in their daily diet due to the awareness that vegetables provide better source of energy and nourishment to the body. With tunnel farming the production and income. Increased by 60 percent as compared to traditional farming, so it is the best opportunity for growth and as well as profit.

### **Target markets & Customers:**

Vegetables are included in the basic necessities, so everybody uses vegetables. Generally there are two types of markets one is local and second is foreign, but our target market will be local because vegetables are perishable in nature, its exporting is very risky. Our customers will be households, hotels and restaurants through vegetable markets.

### **What will be done under this work programme?**

The proposed project is designed as a medium size off-season vegetable farming two units, spreading over a land area of 3 acres for each unit. Off-season vegetables, such as, tomatoes, cucumber, brinjal, hot pepper, sweet peppers and watermelon can be cultivated viably using walk in tunnel technology.

### **What will be the objective?**

The ultimate objective of every business is to earn profit, so our core objective is to earn profit by providing high quality off-season vegetables in the local markets.

### **Process of Tunnel Farming:**

- Step-1: NURSARY SAPLING**
- Step-2: FIELD BED PREPARATION**
- Step-3: SOIL FERTILIZING**
- Step-4: NURSARY TRANSPLANTATION**
- Step-5: MOISTURE CONDITIONING**
- Step-6: PLANT PROTECTION**
- Step-7: TOP DRESS FERTILIZING**
- Step-8: HARVESTING**
- Step-9: GARDING**
- Step-10: POST HARVESTING ASPECTS**
- Step-1: SHIPMENT/DISPETCH**

**AIMS OF THE THIS TASK:**The aims of this feasibility project are as follows:

**METHODOLOGY, ACTION PLAN & TIMING:** We have obtained data from the internet. We have also discussed with tunnel experts, who are already working on this project, they provide us complete guideline. However, we developed a questionnaire to collect data from customers and as well as tunnel farmers.

### **Products:**

- Melons
- Tomato
- Pepper
- Cucumber
- Bitter Gourds
- Squashes
- Eggplant
- Water melon
- Brinjal

### **Prices:**

The prices of vegetables in normal season are around one-third of the prices of vegetables grown in off-seasons. But most of the time it depends upon market.

## PPRP District Khairpur Stall at Shah Abdul Latif University Khairpur

District Khairpur District Manager and team District Khairpur with Support of Sartyoon Sang (CED sector) arranged stall at 5th Annual One-Day Entrepreneurial Mella organized by Shah Abdul Latif University Khairpur, where event inaugurated by Ms. Parveen Shah- Vice Chancellor SALU .celebrated the Rural women with CO/VO/LSO office bearers.
